EDUCATION

St. Joseph's Degree College, Somwarpet   Somwarpet, Kodagu
Degree in Bachelor of Computer Application   June 2020 - August 2023
CGPA: 7.89

EXPERIENCE

Sunrule Digital Solutions | Flutter Developer Intern   Bengaluru | January 2024 - Present

As a Flutter Developer intern, I am gaining hands-on experience in developing cross-platform mobile applications using Flutter framework. Collaborating with experienced developers, I am actively involved in all stages of the app development lifecycle. My responsibilities include writing clean and efficient Dart code, integrating Firebase services for backend functionality and consuming APIs for data retrieval. Through this internship, I am honing my skills in mobile app development and gaining valuable insights into industry best practices.

SKILLS

Programming Languages:	Dart, Python, Java
Libraries/Frameworks:	Flutter, Figma
Tools / Platforms:	Android Studio, GitHub, VS Code, PyCharm, Postman
Databases:	Firebase, Sqflite

PROJECTS / OPEN-SOURCE

Meal_App | Link   *Flutter*

Developed a mobile application using Flutter framework to create a user-friendly interface for browsing and filtering meal options.
Utilized JSON format to efficiently manage and display meal data within the app.

Chat_App | Link   *Flutter, Firebase*

Developed a dynamic mobile application using Flutter framework with Firebase Authentication for secure user authentication and Firebase Firestore as the backend database, enabling real-time communication between users.

Satellite_Info | Link   *Flutter, Firebase*

Developed a comprehensive mobile application using Flutter framework to provide users with information about laboratories, spacecraft, and customer satellites in India's space industry.
Curated and organized data on laboratories, spacecraft, and customer satellites, making it easily accessible within the app.

Task_App | Link   *Flutter, Sqflite*

Developed a versatile mobile application using Flutter framework and Sqflite database to facilitate task management and event tracking.
Designed an intuitive user interface allowing users to easily note upcoming events, programs, or tasks.
